

Kainalu Elementary School, Kailua **SATURDAY, JANUARY 25 • 9am – 2pm**

Enter through back gate along Kainalu Drive

Over 55 tons of cafeteria waste was recovered and processed on the campuses of five Kailua schools this past year using safe, natural, hot composting technology. Our fresh, organic, nutrient-rich soil amendment is ideal for all kinds of farms, gardens, potted plants, landscaping and lawns.

\$10 / 5-gallon bucketful

All proceeds benefit the participating schools. The Windward Zero Waste School Hui is proud to share with YOU the very BEST compost in the land! Compost is priced at \$10 for a 5-gallon bucketful (approximately one cubic foot). Please bring your own container(s) if you have them – we have buckets on hand if you don't.

Worm castings (vermicast) also known as "Gardeners' Gold" available while supplies last, priced at \$15 for a 5-pound container.

More information: contact <mindy@waikikiworm.net>, 382-0432.

Ka'ohao Public Charter, Kainalu Elementary, Ka'elepulu Elementary, Enchanted Lake Elementary, and Kailua Intermediate School comprise a partnership of Windward schools working cooperatively in the pursuit of waste reduction, soil restoration, and applied environmental education. All members participate annually in the U.S. EPA's Food Recovery Challenge and adhere to strict, safe, standardized operational procedures.

The Windward Zero Waste School Hui is a project of Oahu Resource Conservation and Development Council, a 501(c)3 non-profit organization.
